Continuation of 2. NOTE: The amendment to the specification will not be entered because it deletes figure description. Applicants argue that the amendment was present in the response of 5-15-03, however no such deletion was found in the said response.

Continuation of 5. does NOT place the application in condition for allowance because: All the rejections are maintained for reasons of record set forth in the previous office action of 7-30-03 and Applicants have not provided any new arguments and evidence rather reierated their prior arguments. It is reiterated that differential expression does not provide evidence that TSAP-21 is a tumor suppressor. Regarding the appendix A, it is noted that the appendix was not considered because it was not timely presented i.e. before final rejection.
